

**CITY OF LAGUNA BEACH  
MEMBER OF THE CITY COUNCIL**

**WAYNE BAGLIN**

**OCCUPATION:** Incumbent

As your Councilmember, I'll stop the gridlock in City Hall and on our streets. Here's how:

**Village Entrance**

Not long ago we overwhelmingly endorsed a Village Entrance project to provide our downtown and civic arts district with much needed parking, better traffic flow and a park. We successfully created peripheral parking at ACT V providing hundreds of parking spaces outside the congested downtown core. Now, we must preserve ACT V parking and build a Village Entrance. We can make it happen!

**Water Quality**

We've turned the corner in water quality! Through major improvements to our sewage system, an effective spill prevention plan, 24/7 emergency spill response, and a ten-year infrastructure rebuilding plan, Laguna's waters have been dramatically improved. My continued leadership and dedication to water quality will keep us on the course to our goal of zero spills and elimination of nuisance water pollution of our watercourses and ocean.

**Good Government**

With your help and your vote, together we can and will improve parking and circulation, protection of our ocean waters, tidepools and open space, bring financial accountability to City Hall, and reform a broken design review process.

I pledge to make it happen! I ask for your vote.
